Mahyar Abbasi

Front End Developer

👤 Profile

A graduate student in mathematics from Shahid Beheshti University (SBU), Tehran. During my university studies, I have finished my Web Designing courses at Tehran Institute of Technology with a total of 230 hours of study of web-based courses such as HTML, CSS, JavaScript, and PHP. In the meantime, I have two years of experience in working on web science studies and projects. Moreover, I am looking forward to improving all my skills as a web programmer, more specifically working as a group member, to get the most from my abilities.
